Cynefin

This week in our topic we have learnt about our cynefin. We have done art based on St cannas church. We had to draw either stained glass windows or a different historic item in St cannas church or the actual building, The other art piece was to draw a place important to you near your cynefin. We learnt that cynefin is all about what reminds you of home and feels like you belong,a place special to you where you can feel welcome and safe. We thought about locations important to us and to share your ideas.
