

Friday 20th December

Eco Owls Home learning task:

"Christmas is a time when we use lots of wrapping paper, cards, and decorations. Think about how we can take care of our planet during the holiday season.

1. Look around your house after Christmas and find 3 things that can be recycled. Write or draw a picture of each thing.
2. For each item, explain why it's important to recycle it.
3. Bonus: Can you think of one way to reuse something instead of throwing it away? Write or draw your idea!"

Due date: Wednesday 15th January
